

Imagine

We invite you to join us on October 16, 2008 in honor of World Food Day. Our intention is three-fold:

1. To open your doors and hearts to feed everyone in the community by letting patrons price their own meals for one day. The meal will be offered in small, medium, and large serving sizes to help eliminate waste in the food industry
2. To create an opportunity for those who make their living in the food industry to give back by donating on this day to their favorite food related charity.
3. To imagine what it would feel like, for just one day, to know that everybody in the Salt Lake City could eat.

Your participation would be greatly appreciated. We will handle all media and post you on www.oneworldeverybodyeats.org website and other links, so that your community and world may salute you!

Thank you,
From our organizing sponsors:
